One-Point Perspective

Name _____

Date _____

In one-point perspective, every line that goes back into the picture meets at one point on the horizon line. Roads, hallways, train tracks and rows of trees all work this way.

1. Draw a horizon line and put one vanishing point on it.
2. Draw a square or rectangle anywhere: the front of a box.
3. Connect each corner to the vanishing point with light lines.
4. Draw the back edge parallel to the front, then erase the extra lines.

YOUR TURN: DRAW A STREET, A HALLWAY OR A ROOM

Teachers, librarians, homeschool families and groups may print and copy these sheets for their students. Please don't sell them.
