TEMPLATE 12 · FREE FROM CLEAN CUT SVG

Calendar holder, small

cut
fold / score

Calendar holder, small

4.75 x 4 in front | 15 min | Heavy cardstock, 80-110 lb (216-300 gsm)

You need

- Heavy cardstock
- Scissors and a craft knife
- Ruler and bone folder
- Strong glue or double-sided tape
- The 2027 month cards (next template), or your own photo

CUTTING MACHINE?
Upload the SVG (Cricut Design Space, Silhouette Designer Edition and up) or the DXF (Silhouette Basic). Set the dashed lines to Score, then Attach them to the cut shape.

Steps

1. Print at 100% on heavy cardstock.
2. Cut the corner slits on the front panel with a craft knife.
3. Cut along the outline.
4. Score and fold on the three dashed lines so the strip makes a triangle.
5. Glue the tab under the top edge of the front panel and hold until it sets.
6. Tuck the four corners of a month card into the slits.

Tip: Each month, slide the old card out and tuck the next one in. The back panel is a good place for a short list of birthdays.

Free for personal, classroom and library use, and for handmade cards you sell. Please don't share or sell the files themselves.
