Coffee mug shaped card

4.4 x 3.8 in folded | 10-15 min | Cardstock, 65-80 lb (176-216 gsm)

You need

- Cardstock
- Scissors or a cutting machine
- Bone folder or a dry ballpoint pen to score
- Markers, colored pencils or patterned paper to decorate
- Glue stick

CUTTING MACHINE?
Upload the SVG (Cricut Design Space, Silhouette Designer Edition and up) or the DXF (Silhouette Basic). Set the dashed lines to Score, then Attach them to the cut shape.

Steps

1. Print at 100% (actual size) on cardstock.
2. Score the dashed fold line with a ruler and a bone folder or a dry pen.
3. Cut along the solid outline. Cut any small inside openings first, while the sheet is still stiff.
4. Fold the top half back along the score so the outline lines up.
5. Color or layer the front. Write your message inside, or glue in a sentiment strip.

Tip: For a layered look, cut the same shape again from patterned paper, trim 1/8 in off all around, and glue it to the front.
